--	--	--------------------------------

A. FACILITY SUMMARY

The facility serves as a disposal site for Lincoln County. Refuse is delivered to the site by waste transport or private vehicles. The facility is a Municipal Solid Waste area-fill disposal site and is authorized to accept Municipal Solid Waste and various special wastes as described in Section C(2) below; no other waste is permitted for acceptance at this facility.

1. GENERAL DESCRIPTION

The 49 acre area within which the facility will be located is private land located within the confines of the Permittee's property in Lincoln County, NV. This facility is located in the northern portion of the property, adjacent to Crestline Road. The Permit authorizes the construction and operation of a Class II disposal site, consisting of one municipal solid waste landfill unit, contiguous land, structures, and other appurtenances and improvements for the disposal of municipal solid waste as approved by the Nevada Division of Environmental Protection (Division). The Application provides that interim and final cover will be installed concurrently with ongoing operations. The Owner/Operator will perform vadose zone monitoring, methane monitoring, closure, and post closure care in accordance with this Permit. The facility has been granted a waiver from groundwater monitoring due to depth to groundwater (minimum 220 ft below ground surface) and low rate of leachate generation.
